## Has No Gas Now!

Once a woman of her age had to be careful. Today, she eats anything she wants! A Stuart tablet—and after eating distress vanishes. Chew a Stuart tablet after the heaviest meal, and you, too, can smile at indigestion. Stop all gas and belching. Ends sour rising, belching. A little statine is all your stomach needs!

### Full Box FREE!

Every drugist has Stuart's tablets, 25c and 50c. Or a full box free if you write the F. A. Stuart Company, Dept. T, Marshall, Mich. Get a metal box of Stuart's for the pocket—and keep it filled! Hearty eaters—hard eaters—high livers—find Stuart's a boon and blessing!

## Denied Right to Merge Railroads

I. C. C. Bars Van Sweringen Billion Dollar Nickel Plate Railroad Merger—May Be Given Clean Bill If "Financial Structure" Is Changed.

Washington, March 3.—The Van Sweringen billion dollar railroad merger has been defeated, but the two Cleveland financiers, who started their careers as newsboys, still have a chance to send it skyward, it was said today.

All they have to do, the experts say after a microscopic examination of the Interstate Commerce Commission's decision denying them the right to merge five large railroad systems into a single unit, is to change the "financial structure" of their plan. The commission probably will give them a clean bill of health on a new application.

Just what O. P. and M. J. Van Sweringen will do in the light of the commission's decision was not revealed today in Washington. Col. W. A. Colston, their personal attorney, who fought for the merger nearly a year, was frankly non-plussed.

Attention was called to the fact that O. P. Van Sweringen, in his appearance before the commission last summer, said he and his brother had done the best they knew how "to be fair to every interest involved in the proposed unification."

This pronouncement found little favor with the commission, whose decision said it could not escape the conclusion that the Van Sweringen plan was arranged "with the intention of keeping control in the hands of the proponents, even though their interest is a minor one in fact."

There seemed to be no question in Washington that the commission would approve the Van Sweringen plan "as a transportation plan." There was much conjecture today as to what effect the commission's action in the Van Sweringen case would have on other impending railroad consolidation plans.

Promoters of the Erie-Rock Island merger have been withholding formal application for their merger until the commission passed on the Nickel Plate case, although plans for an interlocking directorate of the two big systems are now before the commission for approval.

Other tentative merger plans, primarily contingent upon the Van Sweringen Nickel Plate merger, include the Delaware, Hudson's absorption of the Wabash, Wheeling & Lake Erie, Buffalo, Rochester & Pittsburgh, Kansas City Southern and Missouri-Kansas-Texas; the Missouri Pacific with the Denver & Rio Grande Western, Western Pacific, Texas Pacific, New Orleans, Texas & Mexico, and some other lines and the Hill plan of merging The Great Northern, Burlington, Colorado Southern and Northern Pacific.

## Court House Oil Tank Arrives

The carting of a big 10,000 gallon oil tank through the city streets Tuesday afternoon attracted a great deal of attention and caused considerable speculation. The tank was being carted by the Van Etten & Hogan trucking firm to the court house yard where it will be buried under ground and used as a fuel supply for the oil burners used in heating the court house and jail. The tank as it was drawn by motor truck through the streets was as high as the first story of a building and in several places barely passed under low hanging wires. Although large in size the tank weighed but three tons, while the trailer upon which it was carted weighed five tons.

**WEST SAUGERTIES.**  
West Saugerties, March 3.—George Hommel, who has been quite ill for some time, seems to be improving. His son Charles is taking care of him.

**CURRENT OFFERINGS AT THE THEATRES.**

Tonight and Thursday another big bargain has been arranged in the line of two big features at Reade's Kingston Theatre. The first offering is Corinne Griffith in her latest screen triumph, "Infatuation."

The other feature with "Infatuation" will be "The Wheel," one of

John Golden's big stage successes. From advance reports "it is a strong drama of the screen more potent even than the Winchell Smith play for which it was adapted."

In the cast are Harrison Ford in the male lead and Claire Adams who plays opposite him.

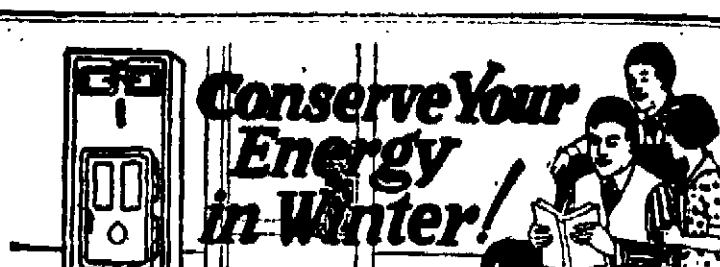

At the Opera House tonight for the last times will be screened the Fox screen version of Chauncy Pollock's sensational stage play, "The Fool."

It has well merited its tribute as one of the finest motion picture dramas of the year.

"Smoldering Fires," with Pauline Frederick and Laura La Plante, is the feature attraction tonight at the

Overriding Tendency to Shift Responsibility Scored by Speaker at Men's Club Meeting at Redeemer Lutheran Church.

At the regular monthly meeting of the Men's Club of the Lutheran Church of the Redeemer, held Tuesday night, E. H. Jordan, deputy regional director of the Boy Scouts of America, with a straight from the shoulder address on "Morals of the Youth of Today," to which everybody listened, and music by an orchestra composed of members of the choir of the church, were the features of the largest gathering of this newly organized club.

Speaking of the prevalence of crime throughout the country and the more general indifference to the sanctity of the law, Mr. Jordan declared that nothing could be done to correct these conditions until a closer cooperation of the three fundamental instrumentalities for moral development, the home, the school and the church. He scored a prevailing tendency of these three shifting the responsibility. A failure to get the viewpoint of the youth and the lack of a sense of responsibility along the lines of community effort, the speaker asserted, were some of the marked weaknesses of the educational efforts of the day. Though not offering it as a panacea for all the ills of the generation, Mr. Jordan declared that the Boy Scout movement was pregnant with great possibilities as a supplement to home, school and church. He congratulated the Men's Club on their meeting with the troop of Boy Scouts as their guests.

Seven members were added to the rolls. Preparations are under way for two entertainment features that promise to enlist the widespread interest of the entire membership, the congregation and the community. The music of the evening, which was in a nature of a delightful surprise, was furnished by an orchestra of six pieces all of which was played by members of the Boy Scout Troop of the church. The members of the orchestra were: Fred Soalt, piano; Richard Bailey, violin; Samuel Messinger, clarinet; Archie Thomas, trombone; John Mohr, baritone and Chester Fox, traps. Before and after the business and during a fine lunch that closed the meeting, the boys acquitted themselves proudly and were generously complimented on their achievement.

There will be reports from delegates to the State Grange and a brief memorial service for Past Master C. E. Davis. The officers for 1926 will be installed by State Master S. L. Strivings. Warsaw, March 3.—The Polish Diet today ratified the Locarno Security Treaties. The Diet also adopted a resolution demanding a seat for Poland in the League of Nations.

Paris, March 3.—France will not take the offensive in Morocco before April 15, it was announced by the foreign office today. Abd-el-Krim, meanwhile, is taking advantage of the absence of large French troop concentrations to attempt to win back the dissident tribes.

Moscow, March 3.—Gallant swains in the Buryat Republic, hard on the border of Mongolia, must quit stealing their wives, a new clause in the criminal code, decrees. The Buryat "happys" are protesting though. They declare that only a "sissy" would ask a woman to marry him.

Odessa, March 3.—Weakened by overwork and stupefied by the fumes of chloroform administered to the patient, two surgeons and three nurses in the Odessa City Hospital fainted as the chief surgeon prepared to make the first incision in an operation on Pavel Pokroff for appendicitis. Pavel came out of the anaesthetic, became frightened and fled.

London, March 3.—"Lord Oxford has been—well, if not shingled, certainly 'hobbed,'" says the Daily Sketch. The former Herbert Asquith, who has always worn his hair in a heavy mass, has had it shorn close, the Sketch says.

## HISTORICAL ENTERTAINMENT AT EPWORTH HALL TONIGHT

Excellence in music and dramatic art will provide an evening of rare enjoyment when the Ebsay Ross Trio appears this evening at Epworth Hall. This charming program is built around one of the big dramatic moments in the history of America, the episode of the making of the first flag by Betsy Ross.

A cutting, historically correct as to the actual conversation which took place at that time, with musical background and scenic effects will be given by Ethyl Ross, noted dramatist, producer and musician. Companion artists will be Edna Greer, violinist and contralto, and Rose Gorham, soprano and pianist. The flag episode is called "Old Glory's First Recruit" and is given in the early part of the program.

Costumes are particularly fine. In part one, the "Majds of 1776" the conventional hoop-skirt dresses in pastel shades with pantalettes and bonnets are worn. In part two "The Immigrants" the costumes are that of the Italian and Gypsy. In part three, called "French Salon" the old French Colonial costumes are worn with the violinist in male attire.

The program is as follows:

**PART I**  
Majds of 1776.

## FREEZING WORDS

It was very cold one afternoon and Eugene had thought he had never known it to be so cold.

There had been some mild weather and everyone had said:

"It seems as though there were spring in the air."

But right after that it became very, very cold, and if spring had been in the air she had certainly gone back home for a while and had decided not to come forth for a time.

Every time Eugene spoke he could see his breath in the cold, cold air.

Everyone did the same thing, too, in fact, everyone's mouths seemed to look like kettles when the steam is coming out just as the water boils.

That had happened before, but it had never seemed to amount to so much at any other time.

Eugene even thought that it might freeze so hard that the warm breath coming out of people's mouths would form into little icicles and cakes of ice.

He thought of that a good deal. In fact, he went to bed thinking about it. Now, as a rule, Eugene seldom had dreams. He went to sleep so quickly that if he was speaking to anyone as he got into bed, as soon as he was lying down he was asleep.

Often and often he went to sleep right in the middle of sentences—sentences that were never finished.

But this night it was different. No sooner was Eugene asleep than he began to dream. But he did not know it was a dream. It was so real to him.

He was in a place very, very cold, and very close to the North pole.

But there were a good many people around, about as many people as lived

in the village which was Eugene's home.

In fact, he began recognizing the people from his own home and speaking to them.

He meant to ask them how they had all arrived 'way up here, but he didn't, as he knew they would only ask him the same question and it would have seemed so foolish not to have been able to answer it.

Yet he could not have answered it. The people all spoke to one another and as they did so the breath came out of their mouths and began freezing in long icicle shapes.

And then the words began to come out, and Eugene saw words and sentences such as, "My, isn't it cold," coming right out of a person's mouth, going up a little distance into the air and then freezing solid.

"This is Freeze Town," said another. "This place is now called by that name."

And all those words came forth and hung suspended in the air, from quite solid. They still showed up words they were, but they were thick, clear ice.

Well, as the words began to freeze as people spoke, and as the air became thick with frozen words, a great blanket of snow came down from the sky with icicle hooks hanging down to which the words attached themselves.

The whole air became actually crowded with frozen words.

In fact, it became so crowded that the words found themselves having no place to go and they began planting themselves on the snow banks and all around the front doorsteps and in front yards and even in the street.

So thick with frozen words did Freeze Town become that the tallest man in the whole town had to come out and direct traffic so that the people could get about.

Even the town band, which played for indoor skating during the winter, came out, and as they did so, playing as they marched, the music notes were surrounded from the snow blanket and lying about on the branches of trees.

There were whistling notes, also, made by boys who whistled well, and these froze, too.

There was no telling what would have happened next had it not been that Eugene's mother awoke him and said, "Time to get up and it is not so cold today as yesterday."

**Not Her Daddy**  
Mary Lou recently visited the city for the first time. She was bewildered by the crowds, and was constantly watching for a familiar face.

One evening she was sitting in the hotel lobby with her mother.

Suddenly she remarked to her mother: "Everybody I see I think it's daddy, and everybody ain't!"

## Certainly

"Does your husband enjoy life?"  
"Yes, indeed. He's a traveling man. You know."

## School Out

He— I'm a man of the old school.  
She— We girls dismissed that class years ago.

## Cause Enough

"What made you say your sister didn't flirt?"  
"My sister."

## Well, Well

"Did you see service in France?"  
"No, but I read his poems."—Michigan Gargoyle.

## Sure Sign

"What makes you think the boss doesn't like you any more?"  
"He fired me today."

## Tactful

At Bazaar—One dollar a kiss.  
Shrewd Bargainer—Give me fifty cents' worth.—Ohio Sun Dial.

## His Status

"Tell me, Toto, what is a widower?"  
"Why, the husband of a widow, of course."—Pele Mele, Paris.

## Force of Habit

Brown—Is my wife at home?  
New Maid—No, sir. Who shall I say called?—Boston Transcript.

## Responsibility

"How do you control your husband while you are away?"  
"I leave the baby with him."

## So to Speak

"How did you cook this steak?"  
"With electricity, hubby."  
"H'm. It needs a little more juice."

## Traffic Stuff

"Cholly had a field day yesterday."  
"How come?"  
"Collided with a pretty girl driver. While they were exchanging cards another pretty girl backed into him."

## To a T

Lohigh Falkner, the Australian cat-king, was talking in New York about the important commercial treaties that have been made between Germany and Russia.

"These treaties," he said, "will be very valuable if only the bolsheviks will keep their grimy paws off them."  
"The bolsheviks," he went on, "I heard one of your wits describe them the other day—describe them to a t, so to speak—as the men who put the trouble in trouble."

## Bill Sikes, Humorist

An argument in favor of inexpensive possessions is sent by a correspondent, says London Tit-Bits. A few nights ago a burglar got into his house and left a parting note on the dining-room table. "This is a real disappointment," the note ran. "After all my trouble, I can't find a thing worth taking. Please buy a few valuables, or you won't see me again!" Even a burglar has a sense of humor.

## Vanity Cases for Men

Vanity cases for men, in which are carried pipe, tobacco pouch, key ring, comb, nail file and other accessories that make a man's pocket a bulge, are the latest fad in London, says Popular Science Monthly. The bag also for an extra collar and a mirror.

## His Reason

Wife—I notice that you cut an article on "How to Live in a Flavored" out of the magazine. Why did you do that?

Huh—I was afraid your mother might read it.—Boston Transcript.

GOOD NEWS  
Nine Extra Years of Life

**H**EALTH is improving—disease is decreasing—life is lengthening. You and your family have a better chance to live long and happily than people ever had before in the history of the world.

Splendid gains have been made in the United States and Canada within the last thirteen years. Stated in an insurance man's language, five years have been added to the average expectation of life.

But more encouraging—in the same period, nearly nine years were added to the life expectation of Metropolitan Industrial Policyholders—a gain, over the general average, of four extra years.

How was this done?—Largely through the inspiring work of our Metropolitan men and women. They sent trained nurses to the homes of millions of sick Policy-

holders. They fought disease and taught the well how to keep well.

## Your Health in 1926

Use the helps offered by medical science to prevent disease. You need never fear typhoid. Inoculation will prevent it. Your children need never have diphtheria. Toxin-antitoxin treatments will safeguard them. Smallpox will not touch your family if all are vaccinated when necessary. One by one, dread diseases are being conquered. In ten years the tuberculosis death rate has been reduced more than one-half. Five years ago the diphtheria death rate alone was higher than that today for diphtheria, scarlet fever, measles and whooping cough combined.

## Send for a Life Table

Have you ever seen the figures shown in Life Tables that tell the average life expectations for each age? While these tables may not apply to you individually, they do apply to the composite you—you and all the other tens of thousands at your age.

Send for a Life Table so that you may see how many years it allots to persons of your age. It will be mailed free on request together with a list of many free booklets prepared by the Metropolitan, covering the cause and prevention of almost every disease by which you are threatened.

The Metropolitan Life Insurance Company cordially invites all of its friends and neighbors to share and use the knowledge that is conquering disease and building longer, happier lives.

FREDERICK H. ECKER, Vice-President

HALEY FISKE, President

## Here's The Way To Polish Up Dull Teeth

That World's Dental  
Authorities Advise

Works Wonders by Clearing  
Dingy Film Off

WIDESPREAD dental discoveries in the care of teeth and gums have been made. "Off-color" teeth have been proved quickly restorable to clear and gleaming whiteness. Tender gums are firm; given healthy coral color.

Tooth and gum troubles were found to come largely from a film coat that forms on teeth, absorbs food discolorations and breeds bacteria. Run your tongue across your teeth and you'll feel a slippery coating. That is film. Old-type dentifrices won't successfully clear it off. That's why your teeth have remained "off color" regardless of what you did.

Now, in a new-type dentifrice called Pepsodent, those conditions have been met—you can clear that film off. Teeth whiten amazingly. One's whole appearance thus is often quickly changed.

To prove these results, get full-size tube for free, sent at your druggist. Do this in fairness to yourself.

## How Skinny Kids Gain Needed Weight

Weak, undernourished, underweight boys  
and girls who are peevish, fretful and sickly  
need McVey's Cod Liver Oil Compound.

Cod Liver Oil would be just as well, but  
many parents would be so afraid to give  
them the horrible, nasty, fishy, ill-smelling  
oil, when sugar coated and flavored  
and made by McVey's Laboratories of  
New York, are so easy to take and ready  
and sure to their delicate stomachs.

These are the advantages of the first class  
cod liver oil: It is pure, clean, and  
contains no impurities. It is easy to  
take and does not cause any of the  
ill effects of the old cod liver oil.  
It is a perfect food for the body and  
will build up the child's health.

## Quick Results For Dyspeptics

It is the infallible remedy with  
which the Grover Graham Remedy  
for Dyspepsia and all kindred stomach  
disturbances, not only cures it so  
quickly, but it also cures it so  
completely that it is the only  
remedy for the cure of persons  
who are suffering from it. The  
remedy is so simple and so easy  
to take that it can be used by  
anyone, and it is so effective  
that it will cure the most  
stubborn cases of dyspepsia.

## GROVER GRAHAM DYSPEPSIA REMEDY

Has been prescribed for over 60 years.  
It cures all indigestion, dyspepsia, and  
all kindred stomach disturbances. It is  
so simple and so easy to take that it  
can be used by anyone, and it is so  
effective that it will cure the most  
stubborn cases of dyspepsia.

## Expect 65,000 New Income Taxpayers

Albany, N. Y., March 3.—(Special.)—About sixty-five thousand new wage earners are expected to join the army of state income taxpayers this year. District Director John G. Malone, of the Albany office of that bureau, urges these persons to promptly secure blanks and file them before April 15.

"Where these newcomers are on a straight salary, wage or commission basis," he said, "they should ask for short form 200. If they also sold real property, stocks or bonds or have income from a partnership, estate or trust, they should obtain long form 201. These are the only classes of individual returns used and they apply to these two groups regardless of the amount of income.

"Not being under obligation in previous years to pay any attention to tax matters," concluded the director, "these persons may not be aware that the state law requires returns on \$1,000 or more of net income from single persons and on \$2,500 or more of income from married persons. Where a younger member of the family has just become a contributor to the home, he should understand that he is not allowed any deduction for these payments nor for his personal expenses before figuring the amount of his income subject to tax."

## FEBRUARY GIFTS TO T. B. HOSPITAL.

The following gifts have been received at the Tuberculosis Hospital during the month of February and are hereby gratefully acknowledged: Ice cream for Tuesdays and Sundays from Aaron and Raphael Cohen, K. of C., and friends; 2 crates of grapefruit, 2 crates of oranges, 2 bushels of apples, 2 bunches of bananas, crate of cauliflower, 5 pounds of grapes, 2 dozen lemons, box of figs, 16 quarts of Brussels sprouts, 12 heads of lettuce, 2 baskets tomatoes, friends; periodicals. Mrs. Myer; flowers. Mrs. Levan Winne; periodicals. Mr. Van Keuren. Hurley; 100 music rolls. Mrs. Laundry.

## Standard Acre

The acre as a land measure was at an early time an uncertain quantity, and differed in various parts of England. It was reduced to a standard by King Edward I, about the year 1200. In 1824 the standard acre was ordered by act of parliament to contain 4,840 square yards. That is the standard acre today.

PROFESSIONAL WIRING.

Piece of Fuse Wire Finds Exact  
Shape for Awkward Bends.

F. M. Russell.

FIRST BEND FUSE WIRE TO  
CORRECT SHAPES, THEN BEND  
BUS WIRE FROM  
THESE PATTERNS

It is often very difficult for the fan who has not built many sets to make a neat job of the wiring. Sometimes a lead has a number of awkward bends in it which are hard to get just right. Very often a number of wires have to be bent before one is finished that will fit correctly into position.

It is difficult also to estimate the length of some wires. It is annoying after you have bent your wire to shape to find that it lacks just about an inch to reach the point you wish to connect to.

If you can secure a few lengths of heavy lead fuse wire it is quite a simple matter to find out the exact length of wire required to make a connection and also to see exactly how the wire should be bent.

Take the fuse wire and bend it exactly as you would the piece of bus wire. When this is done take a length of bus wire and bend to the shape of the fuse wire. In this way you will not waste wire by cutting it off the wrong length and will find it an easy matter to make a neat job of bending even a long wire with a number of bends and turns in it. Another way the fuse wire can be used is to bend it in shape between the two points, then straighten it out, cutting off the bus wire to correct length, and bend wire at points with kinks.

**Doings in the Field of Sports**

New York, March 3.—Six of the leading middle distance runners will go to the post tonight in a special three-quarter mile run, the feature event of the annual Manhattan College games. The starters will include: Welen and Cavanaugh, of Boston; Willie Goodwin and Sid Leslie, New York; and Ed Kibby, former Cornell star.

Tampa, Fla., March 3.—It seemed probable today that the Championship Senators will go to bat this year without Dutch Roether, who won 15 games for them last year. Dutch said today that he had offered him "less money" than last year, despite his record, and that he had refused.

Clearwater, Fla., March 3.—Johnny Butler, for whom the Brooklyn Dodgers traded half a ball club, was sick in bed today with stomach troubles, contracted on his trip east from California, and will not be available for practice for several days. Hank Berry is the only real casualty in the outfit. He has a split finger.

Sarasota, Fla., March 3.—The list of Grand holders had been reduced to four today as a result of the signing of Ross Young and Frank Snyder, regular outfielder and catcher respectively. The replacement quarter includes Irish Mousley, outfielder; Bill Terry and George Kelly, first baseman; and Jack Scott, pitcher.

St. Petersburg, Fla., March 3.—Babe Ruth today indicated what the well-dressed ball player will wear by purchasing a Helen Willis eye-shade and a rubber shirt and announcing his intention of donning both for the Yankee practice this afternoon. The Babe expected to work out at first base in the absence of Lou Gehrig, who has a dislocated finger.

**Yanks Not Out For Pennant**

Huggins With Kid Infield Doesn't Figure on Winning Pennant This Season—Some of the Veterans Chopped Off.

St. Petersburg, March 3.—Among the ball clubs that will not win pennants or world's series this season can be listed Colonel Jack Ruppert's Primeval Yankees. Despite reports to the contrary, the Yankees are not the worst ball club in the world. Over a long schedule they probably would end up ahead of St. Louis, Detroit and other American League clubs is quite another question.

In fact Huggins isn't figuring any pennant chances for the Yankees. He's building up instead planning for a hot campaign a year or two from now. No team in baseball history ever won a pennant with a kid infield and that's what Huggins will have this year.

His first step was to separate himself from some of the aging veterans who were cluttering up the bench with their crutches. He chopped off Whitey Witt and Bob Veach and Ferguson and Scotty last year. He has parted company with Steve O'Neill and Wally Schang and Walbie Pipp and Freday Hoffman.

Ernie Johnson and Howard Shanks have gone by the boards. Bob Shawkey has been removed into a coach and youngsters have arisen, or are hopeful of arising, to step into the discarded shoes of the passing vets.

One other thing—don't be surprised to see Spencer Adams replacing Tony Lazzeri at second base before the season is very old. Over-advertised recruits have a habit of exploding and young men of the calibre of Mr. Adams are hard gentlemen to keep out of a slugging lineup.

Considering the short time in which he has been rebuilding, Huggins has been very fortunate. He has a promising first sacker in Lou Gehrig, who can hit 'em high, wide and handsome. Lazzeri and Marcus Koenig, the American Association shortstop, have all the earmarks of big league ball players. And little Mike Gazella, late of Atlanta, looks like a coming infielder. In the pitching line, too, Huggins has been fortunate. Among the younger social set, there are few better looking prospects than Walter Beall, George Pignas and Myles Thomas. Unfortunately they are all just prospects. It will take at least one and perhaps two years of seasoning before they will be real class. And meantime the burden will fall on the shoulders of the veteran pitchers who may or may not be able to hold it up.

Huggins has two sources of real joy, one is his outfield. There isn't a faster or better outfield combination in the league than the Mousley, Combs and Ruth trio. And in reserve are Nick Cullipo and Ben Paschal, young men of unusual slugging ability and ambition. The apparent sincere reform of Ruth is another break for the mite manager.

The Babe is looking better right now than he has at any time since he joined the Yanks. Chances are that he will never again equal his former home run record, but he'll be a valuable player this year just the same.

But, we repeat again, the Yankees will not win a pennant this year. In fact they'll be satisfied to finish in the first division, and lucky, too.

**COLUMBIA WILL MEET TAIL END YALE FIVE**

New York, March 3.—Columbia University, leader of the Eastern Inter-Collegiate Basketball League, will meet the tall and Yale five here tonight in a game that is expected to strengthen Columbia's claim to championship.

This was left in a somewhat muddled state last night when Pennsylvania defeated Penn State, which recently handed Syracuse its only defeat.

**Flowers to Meet Greb in May**

(By Davis J. Walsh.)

New York, March 3.—Informed with official gravity that he must make haste very slowly in challenging the new champion, Harry Greb bowed himself out at the State Athletic Commission offices yesterday and, within the hour, was signed with Tiger Flowers for a second middleweight championship bout at Madison Square Garden on May 21. The commission may be able to laugh that one off but a discerning listener may detect a falsetto note in the general hilarity.

It was Huggins' first victory of note in the backstairs war he is waging with the commission. The promoter has taken plenty of punishment to date but it is a pleasure to state that all of the punches have been well above the belt. For some reason, Mr. Rickard doesn't carry his wallet on the abdomen.

The signing of Greb and Flowers proved two things: That the Tiger means to be every inch a fighting champion or none at all, and that Rickard has beat the commission to the punch by at least six months. If Greb happens to regain his title in the second meeting, there will be a third before the end of the outdoor season and Rickard will be the beneficiary of that one, too.

The details of this home-and-home series, as it were, first saw the light of day some months ago when articles for the first Greb-Flowers bout were drafted. These provided that, if Flowers won, he was to give Greb a return match within ninety days. And when the new contract was signed yesterday, a similar clause was written to the effect that if Greb won, he was to take on the Tiger again not more than ninety days after the second bout.

Greb passed on the other night but a fighting fighter took his place. The fans probably would be able to bear up bravely if they saw more of his kind.

**LAST NIGHT on THE RADIO**

Aside from the fat fryers and buzzers, reception was better last night than in some time and bloopers were less industrious.

The first buzzing spasm began at 8:55 and after a slight faltering at 9 got its second wind and kept up the renewed activity until 9:20. The second spasm, which began at 9:45 and lasted until 10 overwhelmed the fine concert by the Amphion Male Quartet at WJZ. From 10:15 until 10:35 and from 11:30 to 11:45 the buzzers were again on the job.

**Miss Wills Wins Again.**

Mentone, March 2.—Miss Helen Wills advanced another round in the Mentone Tournament today, against the play of Frau Neppach, Germany's woman star.

Miss Wills defeated Frau Neppach 6-0, 6-2.

Branie Hillyard of England eliminated the American, Theodore Sevel in the men's singles today. 8-6, 6-2.

**Society Chews Gum to Slenderize**

Fifth avenue has found a new, easy way to get thin without dieting, rolling or massage. It seems that science has discovered a remarkable, harmless, medicinal ingredient, purely vegetable—free from thyroid or dangerous drugs—that often takes off several pounds a week. It acts quickest when well chewed. Therefore it is embodied in a deliciously flavored chewing gum called "Slends." Local druggists, after reading of the remarkable results obtained in New York, are stocking the gum heavily so that our own stout townspeople can follow Fifth Avenue's lead and "Slenderize with Slends."

**Girl's Sunday School League**

The results of the first four games of the Girls' Inter Sunday School Basketball League, which were played at the Y. W. C. A. gymnasium gave two victories to the First Presbyterian team and one each to the Clinton Avenue and St. John's teams. It was necessary to postpone two of the games but they will be played off soon. The girls are playing the official girls basketball rules, using a three division court, and six players on a team. The forwards are the only one allowed to make baskets.
